**ACCESSIBLE • COMPETITIVE • SUSTAINABLE**

---

## WHO

ITALIA SOLARE is an association that promotes environmental protection and human health by supporting intelligent and sustainable technologies for the production, storage, management and distribution of renewable energy, with a particular focus on photovoltaics. We promote the distributed generation of solar power and its integration with smart grids, electric mobility and energy efficiency technologies to increase the energy performance of buildings.

---

## WHAT

Our team of experts monitors and analyses the development of the solar PV market from a legal, technical, fiscal and regulatory point of view. We focus on:

- The development of new installations
  - The maintenance and repowering of existing installations
  - The role of renewables in the energy market
  - The transition towards distributed power generation from renewable sources
- 

## HOW

Our activities revolve around **15 working groups**, each focused on specific topics and offering support to members in the fields of:

- |   |   |
|---|---|
|  <b>AgriPV</b>                      |  <b>O&amp;M Revamping/Repowering</b>                 |
|  <b>Energy Communities</b>          |  <b>Power Market</b>                                 |
|  <b>Finance</b>                     |  <b>Regional affairs</b>                             |
|  <b>Green Hydrogen</b>              |  <b>Research, Development and Community Projects</b> |
|  <b>International affairs</b>       |  <b>Storage</b>                                      |
|  <b>Legislation and regulation</b>  |  <b>Taxation</b>                                     |
|  <b>Marketing and Communication</b> |  <b>Technology development and standards</b>         |
|  <b>Measures and connections</b>    |   |

“

**ITALIA SOLARE is the only Italian association exclusively focused on solar PV technologies and their integration with smart energy management solutions.**

“

**ITALIA SOLARE operates transparently and freely through the direct involvement of its members and an open exchange of ideas. We regularly engage with the Italian parliament, regulators, national institutions and local authorities as well as national and international organizations in the energy sector.**

## MEMBER BENEFITS

ITALIA SOLARE offers a set of services aimed at supporting its members' business activities:

- Free consultancy on issues related to the management of solar PV installations
- Monitoring and analysis of national and international legislation
- Collating monthly data from the TSO on connections of new solar PV installations to the grid
- Events and training workshops held nationwide
- Discounts and special offers for events and exhibitions organized by third parties.

## TOUR ITALIA SOLARE

Conferences, webinars, workshops and forums all form part of the **ITALIA SOLARE Tour** for professionals, SMEs, investors and public sector officials. Each year the association organises events online and across the country to talk about legislation, technologies, market developments and new photovoltaic business models.

## OUR MEMBERS

We are proud to have as members:

Asset managers and owners of solar PV plants

Installers, distributors, consultants, manufacturers, developers, investors, insurers and energy traders

Clean energy enthusiasts committed to the energy transition

## I NOSTRI NUMERI

**>600** MEMBERS
