

Mechanical Engineer

Chief Executive Officer – BFP Service S.r.l.

Board Member – ITALIA SOLARE

PROFESSIONAL PROFILE

Mechanical Engineer with more than 25 years of experience in the renewable energy sector, covering engineering, utility-scale photovoltaic construction, Operation & Maintenance, revamping, repowering and technical advisory.

Chief Executive Officer of **BFP Service**, an independent Italian company specialized in utility-scale photovoltaic construction, lifecycle asset management and Operation & Maintenance services.

Board Member of **ITALIA SOLARE**, actively involved in promoting technical excellence through working groups, conferences and industry initiatives focused on Solar Construction, construction quality, Health & Safety, Operation & Maintenance, digitalization and Battery Energy Storage Systems (BESS).

Strong expertise in strategic leadership, business development, project execution, quality assurance, HSE management and lifecycle optimization of renewable energy assets.

CORE EXPERTISE

- Utility Scale Photovoltaic Projects
- Solar Construction
- Operation & Maintenance
- Revamping & Repowering
- Battery Energy Storage Systems (BESS)
- Construction Quality

- Health & Safety
- Asset Management
- Technical Governance
- Strategic Leadership
- Business Development
- Engineering Management

PROFESSIONAL EXPERIENCE

BFP SERVICE S.r.l.

Chief Executive Officer

2019 – Present

Italian company specialized in utility-scale photovoltaic construction, Operation & Maintenance, revamping and lifecycle asset management.

Main Responsibilities

- Definition and implementation of corporate strategy.
- Business development and market growth.
- Leadership of EPC and O&M operations.
- Management of relationships with investors, developers, EPC contractors and IPPs.
- Supervision of utility-scale photovoltaic construction projects.
- Health & Safety governance.
- Quality Assurance and Quality Control.
- Organizational development and leadership.

Selected Achievements

- Revenue growth from approximately **€1.5 million** to approximately **€10 million**.
- Expansion of the O&M portfolio from approximately **30 MW** to more than **250 MW**.
- Successful delivery of utility-scale EPC and Revamping projects across Italy.
- Development of quality and safety procedures supporting long-term asset performance.
- Long-term partnerships with leading investors and renewable energy operators.

PES – Progeco Engineering Service

Wind & Solar Operations Unit Manager

2015 – 2019

Management of national wind and photovoltaic operations.

Coordination of multidisciplinary technical teams.

Development of operational procedures and customer relationships.

Moroni & Partners

Wind Energy Analyst

Technical Advisor

2014 – 2015

- Technical due diligence.
 - Bankability studies.
 - Renewable energy consulting.
-

Vestas Italia

Supervisor Planner

2008 – 2014

- Planning and coordination of maintenance activities.
 - Management of operational resources.
 - Customer support.
-

Customer Support Engineer

2007 – 2008

Technical and contractual support for wind farm operators.

SIMET S.p.A.

Project Manager

2006 – 2007

- Mechanical engineering projects.
 - HVAC systems.
 - Technical coordination.
-

INDUSTRY LEADERSHIP

ITALIA SOLARE

Board Member

2020 – Present

Main Contributions

- Coordination of the **O&M – Revamping – Repowering Working Group**.
- Promotion of technical initiatives on predictive maintenance, digitalization and asset management.
- Speaker and moderator at national conferences dedicated to utility-scale photovoltaic construction.
- Organization and moderation of the first **ITALIA SOLARE** conference entirely dedicated to **Solar Construction**.
- Promotion of dialogue among developers, investors, EPC contractors, technology providers and O&M operators.
- Activities focused on construction quality, Health & Safety, lifecycle asset management and Battery Energy Storage Systems (BESS).

EDUCATION

Master's Degree in Mechanical Engineering

Polytechnic University of Bari

Chartered Engineer

Order of Engineers of Bari

Registration No. 8219

Erasmus Programme

École Normale Supérieure de Cachan

France

PROFESSIONAL MEMBERSHIPS

- Board Member – ITALIA SOLARE
 - Member – Order of Engineers of Bari
-

LANGUAGES

Italian – Native

English – Professional Working Proficiency

French – Intermediate

SELECTED AREAS OF EXPERTISE

- Utility Scale Solar Construction
- Construction Quality
- Health & Safety
- Operation & Maintenance
- Revamping & Repowering
- Asset Lifecycle Management
- Technical Governance
- Battery Energy Storage Systems
- Engineering Leadership
