ITALIA[®]
SOLARE

Il fotovoltaico è di tutti

PHOTOVOLTAICS

ACCESSIBLE • COMPETITIVE • SUSTAINABLE

We monitor and analyse all legislative, technical, fiscal, and regulatory aspects that enable the development of photovoltaics.

We operate with 12 working groups, open to all members and focused on the main issues of interest to the photovoltaic sector to advance operators' positions and priorities.

We rely on the expertise of the ITALIA SOLARE Scientific Committee, composed of 10 university professors specialised in energy issues, who share their knowledge in support of the association.

We have a network of regional representatives throughout Italy who are in dialogue with local administrations.

ITALIA SOLARE
is the only association
in Italy entirely dedicated
to photovoltaics and to
technological integrations
for the intelligent energy
management.

OUR MEMBERS

ITALIA SOLARE represents the entire Italian photovoltaic supply chain:

INDUSTRY PLAYERS
(technology manufacturers,
developers, distributors,
installers, professionals, energy
traders, insurance companies)

INVESTORS

**OWNERS
AND MANAGERS
OF PHOTOVOLTAIC
PLANTS**

**SUPPORTERS
OF CLEAN ENERGY
AND THE ENERGY
TRANSITION**

WE ARE A RESOURCE FOR OUR MEMBERS

Our services include:

LOBBY

**TECHNICAL
AND LEGISLATIVE
SUPPORT**

**MARKET
INTELLIGENCE**

TRAINING

COMMUNICATION

NETWORKING

7 REASONS TO JOIN ITALIA SOLARE

1. Enhance your knowledge, thanks to the largest technical and regulatory database in the sector.
2. Monitor national and regional legislation.
3. Receive clear and timely updates.
4. Seize funding opportunities through monitoring of tenders and laws.
5. Access market analyses that allow you to make informed strategic choices.
6. Leverage business opportunities through the member database and networking events.
7. Benefit from tools for personnel recruitment.

EVENTS

Institutional FORUM, EXPERT FORUM, FORUMTECH, National TOUR, and Member WEBINARS are ITALIA SOLARE's regular events aimed at sector operators, SMEs, investors, and public administrations. These events focus on regulation, technology, market development, and new business models for photovoltaics, as well as being exceptional networking opportunities.
